Education

Shenzhen Foreign Languages School — Shenzhen, China

High School Education — Sep. 2024 – Present

- GPA: 4.18/4.30 (unweighted)
- **AP scores of 5:** Calculus BC (AB subscore: 5), Statistics, Physics C: Electricity and Magnetism, Physics C: Mechanics, Physics 1, Physics 2, Chemistry, Macroeconomics, and Microeconomics.
- **AP scores of 4:** Computer Science A, AP Seminar, and World History: Modern.
- **SAT:** R&W: 740; Maths: 790.

Shenzhen Nanshan Experimental Education Group — Shenzhen, China

Middle School Education — Sep. 2021 – Jul. 2024

- Average score for Grade 9: 93+/100

Academia

Analyzing the Extent to which the Preservation Experience of the Nord-Pas de Calais Mining Basin is Applicable to the Fushun West Open-Pit Mine's Preservation via Les Argales Park and Le Métaphone — AP Capstone, Individual Writing Argument

Student Researcher — Sep. 2025 – Apr. 2026

- Argued that preservation methods from the Nord-Pas de Calais Mining Basin are only partly transferable to Fushun because differences in subsidence, geology, urban context, and economic conditions change their risks and benefits.
- Compared Les Argales Park's lake and walking path with Fushun's geological conditions, then examined Le Métaphone's adaptive reuse of industrial remains as a possible architectural model.

Tensions between the Construction of Central Park and the Displacement of Seneca Village — AP Capstone, Individual Research Report

Student Researcher — Sep. 2025 – Apr. 2026

- Argued that Central Park's public-welfare and civil-rights ideals created a tension with the displacement of Seneca Village, a historically free Black community.
- Compared legal records, historical speeches, public-health and leisure research, census/tax evidence, archaeology, and contemporary media to examine property, voting, and reputational rights.

Projected effect of determinism in jurisprudence: Comparing the legal system in *Les Misérables* to the Common Law system today — John Locke Institute, Global Essay Prize

Contestant and Researcher — Feb. 2026 – Oct. 2026

- Wrote an essay on determinism in jurisprudence for the John Locke Global Essay Prize. Globally shortlisted (top 17.5%) and awarded a Commendation (roughly top 10–15%).
- Compared Jean Valjean's punishment in Les Misérables with modern common-law cases to explore how accepting determinism could shift sentencing away from moral retribution toward rehabilitation or protective confinement.

Learning Conjugate Fringe Decomposition for Single-shot Fringe Projection Profilometry — Research & Publication

Researcher & Sole Author — Dec. 2025 – Sep. 2026

- Developed ConjUNet, a physics-informed neural network that decomposes a single carrier fringe into background intensity and the real and imaginary parts of a complex baseband field, enabling interpretable phase recovery.
- Manuscript accepted by Applied Optics, an SCI-indexed journal. DOI: 10.1364/AO.611321.
- Research advice and support provided by the Tencent-sponsored Rhino-bird Science Talent Advancement Program.

Academia (continued)

MATLAB Central File Exchange: Seven Published Tools — MathWorks

Open-source Contributor — Mar. 2025 – Present

- Fourier 3D Display; Picasso Style Image Maker; Cyberpunk Style Image Maker.
- Audio Denoising Processor; Snowy Fog Image Processor.
- Monte Carlo Pi Estimator; Magnetic Newton's Cradle Simulator.

Front-end Website Analysis on the Data Fidelity of Huawei Smart-drive System Mileage Display — Technical Report

Data Analyst — Jun. 2026 – Jul. 2026

- Captured and cleaned the publicly observable mileage return value sent every three seconds over one week; used line plots to compare the series with expected traffic patterns and applied autocorrelation tests to examine whether it was generated by a fixed function.
- Technical report shared on The Hamilton's Diary public platform, gaining nearly 1,000 readers.

Honors & Awards

Grade 11 **Commendation (shortlisted)**, John Locke Institute 2026 Global Essay Prize, Law Category	International
Grade 11 **Silver, Final Top 2**, Tencent Rhino-Bird Science Talent Advancement Program	International
Grade 11 **Nominee, Sole student at school**, TechExplorer Camp, SpringSense Innovation Institute	National
Grade 11 **Global Silver**, British Physics Olympiad, Round 1	International
Grade 11 **Distinction (Top 5%) and AIME Qualifier**, AMC 12	International
Gr. 10-11 **Teachers' List (2 consecutive years)**, Shenzhen Foreign Languages School	School

Enthusiasm

Public Writing Blog — The Hamilton's Diary — WeChat Public Platform

Writer and Editor — Dec. 2024 – Present

- Posting mostly Chinese literary prose and personal narratives, with occasional analytical articles on technical topics and linguistic studies.
- Published around 60,000 words in total, with readership exceeding 6,000 to date.

Fushun Reading — Fushun, China

Internship — Column Editor — Dec. 2025 – Sep. 2026

- Reviewed, proofread, formatted, and illustrated manuscripts at Shenyang Liuqianli Culture Communication Co., Ltd.
- Assigned my own column, whose feature issue highlighted local citizens' efforts to preserve local culture and their memories of the years they have lived through.
- Applied GPT image tools and open-source image skills to refine illustrations; the issue's readership exceeded the seasonal average.

Short Documentary: Industry to New Urban Design — Fushun, China

Independent Photographer, Director, and Proposal Maker — Dec. 2025 – Mar. 2026

- Conducted two weeks of field research and photography on Fushun's industrial remains, where I met the local cultural preservation organization Fushun Reading.
- Produced the documentary over the following three months, drawing on field photographs and research on Fushun's socioeconomic history and urban planning collected with Fushun Reading's help.

Tennis Varsity Club — Shenzhen, China

Team Leader & Tennis Player — Grades 10–12

- Led team recruitment, designed promotional posters.
- Organized two to three matches per week for club members; serving as team leader since 2025.
